

Greener, smarter, fairer, A positive programme for Haywards Heath

Liberal Democrats want to see Haywards Heath Town Council working to improve the way the town looks and feels, following the examples laid down by award winning Burgess Hill and East Grinstead which came first and second in the country out of 10,000 local councils.

Key changes we would make include:

- ✓ Quality Council Status - which enables us to take more responsibilities for delivering local services in the Town (eg potholes, improving footpaths and cyclepaths, litter picking). We would like to employ a 'hit squad' street gang that works for the town and deals quickly, efficiently and cost effectively with immediate problems.
- ✓ Help-point in the Town like the ones in Burgess Hill and East Grinstead - located for easy access in the shopping area.
- ✓ Establish an Environmental forum and environmental audit of the Town Council's activities including changing council lighting over to low energy light bulbs.
- ✓ Promoting voluntary organisations through grants and a support network.
- ✓ Working with young people and especially Streetmate by purchasing a bus which can tour different areas as needed to provide a service / facility with youth workers for young people in the evenings and at weekends.
- ✓ Make the council more open and accessible to local people.
- ✓ These policies can be implemented without additional tax. Partly as a result of council underspend, partly as a result of the increased population in Haywards Heath.

**Greener, smarter, fairer for Haywards Heath
Vote Liberal Democrat
on Thursday 3rd May - when we win - you win!**
